SURPRISES

Founding-client price: CAD \$8,400 — in exchange for a testimonial, case-study rights, and two introductions to other sporting-dog brands. Every number on this page is Canadian dollars.

WHAT YOU GET

THE REBUILD, EXACTLY AS SHOWN IN THE PREVIEW

- Modern store (Shopify) set up on **your** accounts — you own everything
- Up to 150 products migrated, with your photos and copy carried over
- Crate size-finder and series comparison pages
- Order tracking and sales analytics wired in
- The approved design built as a custom theme, desktop and phone
- Every old web address — misspellings included — forwards automatically, so 20 years of links, bookmarks, and Google results keep working
- Guarantee, dealer, sizing, and support pages
- Launch, plus 30 days of fixes after launch — on me

HOW PAYMENT WORKS

THREE STAGES — YOU OWN EACH AS IT'S PAID

- \$2,500** to start — design files and migration plan delivered
- \$4,900** only after you've clicked through your own store on a working preview and approved it
- \$2,500** at launch, when the live site is serving customers

Written agreement and invoice at every stage. Nothing verbal.

THREE WAYS TO SIZE IT

PICK THE BUILD THAT FITS

OPTION	WHAT CHANGES	PRICE
Essentials	Same rebuild; 60 products, no size-finder	CAD \$7,500
Recommended — this quote	Everything listed above	CAD \$9,900
The Works	Adds a product-photography day at your shop, rewritten product copy, email marketing, and a dealer/wholesale portal	CAD \$15,900

Assumptions, in plain English: migration uses your existing product photos and copy as-is; product data arrives in one export; two rounds of revisions on the theme are included; anything beyond this page is quoted in writing at CAD \$95-110/hr **before** the work happens, never after. **Optional, from day 31:** a care plan at CAD \$325/mo — up to 2 hours of updates monthly with same-day response (my version of your five-minute callback), 3-month minimum, then cancel anytime; or skip it and pay hourly only when you call.
